## **EZWEB W-2 ISSUES**

SouthEast Personnel Leasing, Inc. (“SPLI”) is aware of an ezWeb issue in which an employee’s 2023 W-2 cannot be viewed on an employee’s mobile device. Our cloud-based payroll services software provider is aware of the issue and is actively working on a fix for the problem.

Currently, SPLI recommends viewing W-2s on another mobile device and/or computer. If no other device is available or the W-2 still cannot be viewed on an alternative device, the employee can also rely on the paper W-2 which has already been sent.

If an employee has not received a paper copy of his or her 2023 W-2, another may be requested by visiting <https://www.myspli.com/w2.php>.

Please continue to check our website for additional updates regarding the issue.
